<b>Programming Language/Frameworks:</b>	Core Java, SQL, HTML, Data Driven, keyword Driven
<b>Testing Concepts:</b>	Manual Testing, Mobile Testing, Automation Testing, SDLC, STLC
<b>Tools:</b>	Selenium WebDriver, MAVEN, APACHE POI, TestNG,
<b>CRM Application:</b>	Salesforce Cloud, Veeva CRM, Veeva Engage, IMS Mobile Intelligence CRM
<b>Defect Management Tool:</b>	Redmine, Jira
<b>Version Control:</b>	Tortoise SVN

### PROFESSIONAL EXPERIENCE (2.5 YEARS)

Apr 2017 – Current

Project Name: **C&C DATA SORTER**

Client: Pfizer Incorporation

There are a few Veeva CRM iDetailers consists of HTML/JavaScript slides called COST & COVERAGE (C&C), where the dynamic data of insurance plans populates from the SALESFORCE according to the territory which the user is mapped

- Built a JAVA APACHE POI based MAVEN test suite to assemble the raw data to read able data
- Involved in creating framework to automate the Data Validation Test Cases using JAVA, SELENIUM WEBDRIVER and APACHE POI which significantly reduced verification time and error free test data.

Project Name: **SALESFORCE VEEVA CRM AND VEEVA ENGAGE IDetail's**

Client: Bristol Myers Squibb

Team size= 9

Veeva CRM is a MOBILE (iOS) CRM based on Salesforce platform which is one of the widely used customer relationship management - B2C software, in which we developed HTML and JavaScript based IDetail's for BMS Medical practitioners which includes insurance plans, sales production, marketing campaigns, customer support and reporting.

Roles and responsibility:

- Involved in Requirement gathering, Asset audit and understanding the requirements.
- Involved in Functional testing, Integration testing, System testing, Compatibility testing, Regression testing and UAT including Operational and Analytical Testing.
- Primarily responsible for Updating, Reviewing and Execution of the test scenarios.
- Involved in defect logging in Defect management tool (REDMINE), defect triage, test iterations, tracking/reporting results, troubleshooting, and coordinating defect resolution.
- Creating test artifacts, release documentation and release of the build to deployment team.
- Primarily responsible Creation, Review and execution of the testscripts

Project Name: **SALESFORCE VEEVA CRM Rep Triggered Emailers Automation**

Client: Astellas

Team size= 5

Veeva CRM is a MOBILE (iOS) CRM based on Salesforce platform which is one of the widely used customer relationship management - B2B software, in which we developed HTML based personalized audience targeted responsive emailers (RTE) for Pfizer Medical practitioners which includes Insurance plans, drug information, prescribing information etc.

Roles and responsibility:

- Responsible for defect logging, defect triage and defect resolution in Defect management tool.
- Involved in creating KEYWORD Driven automation framework to automate the functional test cases and Metadata verification using JAVA, SELENIUM WEBDRIVER, MAVEN, TestNG and APACHE POI which significantly reduced validation efforts and error free results.
- Creating Test cases, Test script execution in multi browser configuration.
- Creating release documentation and release of the build to deployment team.
- Involved in Peer code review and code optimization.

Achievements

- Recognized as best Automation suite of the year for “C&C DATA SORTER” on location base.
- Awarded ‘Best Sprinter’ for “SALESFORCE VEEVA CRM Rep Triggered EmailersAutomation”.

Key Deliverables across Assignments

- Handling dual Role as a technical team member and as a lead to handle projects end to end and delivering within timelines with excellent quality.
- Ensured that all information and processes were placed for the successful achievement of business and sales processes.
- Participated in review meetings and walkthroughs to better understand the requirement documents and their applications.
- Good team player and individual contributor with analytic, problem solving, interpersonal and communication skills.

Highest Educational Qualification

- B.E (Electronic and communication Engineering) from KLE IT, Hubballi in 2016.
